

Documentation of the use of Generative AI Systems

In the overview below, I fully document the use of generative AI systems in the preparation of this written work and/or the underlying research and analyses.

I hereby declare [please select the applicable option] ...

- ☐ ... that no generative AI was used for this work and that I prepared and wrote it entirely on my own. Accordingly, the following documentation is not applicable.
- ☒ ... that I have fully documented the type and scope of the use of generative AI applications as auxiliary tools in the table below, and that my own creative contribution predominates in the submitted written work

Item [Existing entries = examples]	Generative AI system used	Detailed description of the AI usage
Concept development: Focal topics of the work.		
Literature work: Research and content analysis		
Data analysis: Selection of procedures or interpretation		
Data processing: Creating or revising program code (e.g., R)	Claude	Initializing the basics of The Shiny-app in R
Creation of Figures or Tables.		
Writing: Text structure		
Writing: Language editing		
Writing: Translations		
Please add any additional work steps not listed here.		
Please add any additional work steps not listed here.		
Please add any additional work steps not listed here.		

Place, Date, Signature

¹ The list of keywords in the template is neither exhaustive nor mandatory to follow. Use it as a source of inspiration. Document your specific AI use in a meaningful and transparent way. If you are unsure whether you need to declare the use of a particular AI system, please contact your supervisor. [Please remove this footnote]
